Soccer Tennis Rules

Teams must come up with a Team name – which is the combination of a Nation and an animal -

The game is started with a serve from the backcourt, which must land within the square.

One fault is allowed between each successful serve.

The teams gets one bounce between players,

A team can only score when it has the serve. The scoring is similar to soccer; every time the ball isn't returned the scoring team gets a point. Games are generally played to 15.

The teams will be 4-5 number of players; the ball only needs to bounce in bounds on the first bounce.

Taunting and excessive celebration are expected., so the players have plenty of time to mock or praise each other's skill.
